

CCTV CAMERA POWER SUPPLY BOXES

2 Models to supply your needs!

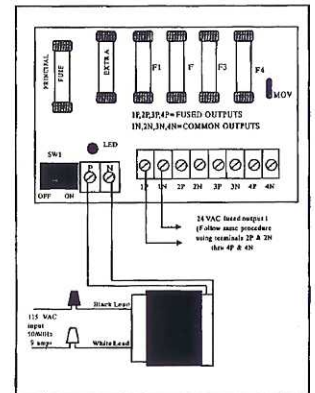

GS-2404PB (4-OUTPUTS)

GoldenState's GS-2404PB has four (4) "Island" outputs to power CCTV Cameras. 24V AC is distributed by way of four (4) fused outputs, having a total of 4 amps of constant current.

Specifications:

- Four (4) 24V AC "Island" outputs. A6
- Output fuses have 3.5 Amps/250VAC rating
- Principal fuses have 5 Amps/250 VAC rating
- 4 Amps constant current
- Input is 115VAC 50-60 Hz
- Outputs are surge protected
- LED "Power Beacon"
- Convenient Power Switch
- Design simplifies installation

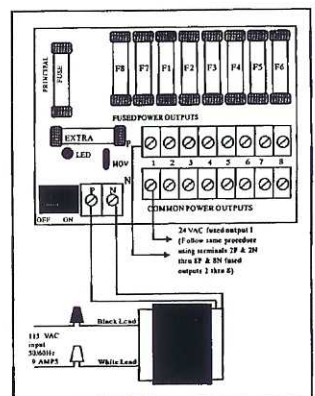

GS-2408PB (8-OUTPUTS)

GoldenState's GS-2408PB has eight (8) "Island" outputs to power CCTV Cameras. 24V AC is distributed by way of eight (8) fused outputs, having a total of 4 amps of constant current.

Specifications:

- Eight (8) 24VAC "Island" outputs. A37
- Output fuses have 3.5 Amps/250VAC rating
- Principal fuses have 5 Amps/250 VAC rating
- 4 Amps constant current
- Input is 115VAC 50-60 Hz. A37
- Outputs are surge protected
- LED "Power Beacon"
- Convenient Power Switch
- Design simplifies installation
