

# Quality Air Test Kit

A-50

Our products are  
Made in the USA.

## RTI-QAT

The Quality Air Test Kit from RTi is an ideal sale tool for evaluating shop air. Saves thousands of dollars for shop owners by identifying the 3 major causes of refinish problems found in their compressed air:

- Inadequate Compressed Air Supply
- Compressed Air Humidity (CAH)
- Particulate, Water & Oil Contamination

### TESTS THE FOLLOWING :

- Static Air Pressure at the Gun
- Dynamic Air Pressure at the gun
- Compressed Air Humidity Level (CAH)
- Contaminate Check: Dirt, Water & Oil

### SYSTEM INCLUDES :

- Contaminate Checker: Sampler vessel with contaminant capturing membrane disc
- Precision Air Regulator with Pressure Gauge to control air to vessel
- Magnifying lens with integral light source
- Digital Hygrometer: 0-100% RH range
- Operators Manual with Shop Compressed Air Audit Form
